

Schools deal with infinitely precious human personalities, each with a different need and hunger for growth, learning and fulfillment.

Helping learners move toward their goals and ours is not a mass endeavor but an individual process.

It is and always has been our goal to discover and nourish the special gifts that every child possesses.

I am eager to welcome you to our growing student body and challenge you to join us in striving for excellence.

The Fellowship Of Learning School

...a gateway to good things

*To broaden and deepen the
academic interests of our students
so they will continue their education
long after formal schooling
has ended.*

*To establish the proper cornerstone
for any educational pursuit,
indeed any pursuit of value, which
is a knowledge of the Word of God.*

The School

The Fellowship Of learning School is a coeducational elementary and junior high school that is also Christian.

We believe firmly that all children, no matter who they are or where they live, should have an adequate education. Students who display an ability to excel must be encouraged to excel still more through hard work, discipline and personal guidance.

Our elementary and junior high divisions provide a basic foundation for learning. Here students develop good study habits, reasoning skills to think things through and make good decisions, and a sense of responsibility to the school community.

The school places its greatest emphasis on knowing the Bible. We believe the Bible is the Holy Word of God, it is authoritative, infallible and without error, and it is absolutely necessary for a proper understanding of humankind, the world and God's relationship to them. Our school life is founded on it and governed by it.

The Students

Must:

be teachable. Students must have a desire to learn. We live in a rapidly changing and developing world. Knowledge is constantly increasing. There is so much to learn and time is limited. The Fellowship student must be attentive in class and have the will and desire to go beyond the classroom and make use of outside resources.

be flexible. The student's work and study habits will need to be refined as the difficulty level of his studies increases. Growth and progress is expected and required.

be sociable. Students must be able to work and get along with their peers and their teachers. Students will be expected to work independently and in small groups; good concentration and a right attitude toward assignments is essential.

be receptive to the things concerning God and the Bible. The Bible will be presented as the authoritative Word of God. Students will be challenged to commit their lives to Jesus Christ and to serve Him.

have parents who support them and the school. We are only a part of the picture. The home and past experiences are strong forces in the lives of boys and girls, and it is difficult to foster growth if parents are not supportive.
